### COLLINSVILLE

### UNIONVILLE

### PLAINVILLE

### RIDE THE LOOP

This 28-mile ride on the Farmington Canal Heritage Trail and the Farmington River Trail passes through six towns including the centers of Unionville, Collinsville, and Simsbury. One of the most picturesque (and only) loop trails in New England, it follows the Farmington River as it flows past historic sites. The town centers offer opportunities to eat, shop, and relax along the way. Mostly flat, there is one short climb and descent in northern Canton on the approximately 3-mile on-road portion, which uses quiet back roads and two stone-dust trails through a state forest and park before rejoining the Farmington Canal Heritage Trail.

Mileage Indicators Shown in Orange Begin at Red Oak Hill Road, Farmington (Mile #0) and Run North to the CT/MA Border (Mile #22) and along the route of the FRT to mile 11.2 in Simsbury.
